Mr. Matthew Baird (Director, Asian Research Institute for Environmental Law)

Kobe SALAD is dedicated to the young generation in Asia who promote the rule of law and develop the mutually-beneficial networks of people for peace and prosperity.

This program started in 2013 in Seoul in cooperation with Hanyang University. Since then, SALAD (School of Asian Law and Dispute Management) was held every summer in Kobe accepting students from various jurisdictions all over Asia and beyond, in the spirit of promoting mutual trust based on the understanding and appreciation of various values deriving from the sustainable diversity of social cultures in Asia.

In 2020, because of the Covid-19 pandemic, we could not hold it on the campus of Kobe University. Therefore, the online seminars under the name of Kobe SALAD Online 2021 Spring were delivered via Zoom in the early spring and many students within and beyond Asia participated and enjoyed the lectures and workshops given by the excellent scholars and practitioners who also took part in from various places on the globe..

Even now, we cannot get rid of the Covid-19 pandemic. So, we decided organize another Kobe SALAD Online 2021 in summer. In the making of this program, we are strongly supported and encouraged by the academics and the practitioners who share the spirit of promoting inclusive societies supported by the mutual understanding with generous exchanges of information, expertise and knowledge which will promote the sustainable development of productive relationships and mutual value creation among people. Therefore, we, once again, cordially invite the participation of the persons who hope to promote the peaceful and prosperous development of societies within and beyond Asia.

Hoping to see all of you via Zoom this year, and meet you on the campus of Rokkodai Campus in Kobe University in the summer of next year.

(The Global Master Program in Law, Kobe Law School)
