				2nd semester	2.0
Numbering Code		Day・Period, etc.	Other(対面)	Timetable Slot Code	3J396
Lesson topic					
Global IP Protection and Management					
Lesson target					
This course aims to prepare students to understand fundamental legal concept and policy in intellectual property (IP) necessary to develop and manage IP portfolio.					

Syllabus and plan

The classes are offered both in person and online. Students will learn how IP rights are used to protect and promote businesses of multinational firms and small and medium sized enterprises in different industry sectors. The lectures include the basics of intellectual property, relationship with businesses and contributions to the corporate managements. The lecturers, Messrs. Shibata and Saito are well-experienced in IP practices and managements at companies. Some classes are recordings of presentations by guest speakers, in-house counsels of multinational firms and lawyers who advise such firms to share their on-hand experiences in their IP management.
